WORK EXPERIENCE

Software Engineer

Cavisson Systems Inc

07/2022 - Present *Noida, Uttar Pradesh*

Cavisson's performance testing, monitoring, and diagnostics software (NetDiagnostics similar as DynaTrace ,NewRelic and DataDog) helps enterprises maximise up-time and optimise server response time for seamless transactions.

- Experienced in debugging and enhancing ASP.NET MVC and ASP.NET Core MVC applications for improved performance and functionality.
- Proficient in implementing Entity Framework within MVC applications. Utilised Design Patterns to enhance application architecture for optimal performance as a software developer.
- Conducted load testing using JMeter to evaluate software performance under various conditions.
- Created, maintained and monitored different type of .Net and .Net core Application with DB(MSSQL,Oracle).
- Implemented IoC and DIP (SOLID) for enhanced application decoupling.
- Utilized Git/GitBash for effective version control in software development projects.

PERSONAL PROJECTS

HRMS- Application

- We can apply leaves and sent email also we can track the employees activity in Employee report.
- All the activity will be handled by admin as approval of leaves etc. Here Employees can also chat each other through LAN.
